INFORMATION & HELP AVAILABLE TO BUSHFIRE AFFECTED COMMUNITIES

We have all, in one way or another, been affected by the recent bushfires. Our communities are facing devastating conditions and while many, many people will be impacted differently, everyone at some point has felt a range of emotions.

As a community, we need to connect with people and seek help and support from one another. This is what we are good at, this is how we can start to recover and rebuild our communities.

Below are some of the services and support available to those affected as well as some ways you can help if you can.

P&C Federation Team

We would also like to acknowledge and thank the hard working volunteers and the RFS for their outstanding, remarkable and tireless efforts and dedication in protecting our homes, communities and wildlife.
