

Parents Welcome the Federal Election result as a Win for Education

President of P&C Federation says "The electorate has rejected Mr Turnbull's cuts to education and embraced the need for the full implementation of the Gonski recommendations for the benefit of students and the country's future."

"Whoever eventually forms government needs to listen to the millions of voters calling for the education system our children need and deserve."

A number of cross benchers represent rural electorates. The Gonski reforms are designed to ensure that the gap between rural and regional students and their counterparts can be overcome. Mr Katter, Ms McGowan and the other cross benchers can make an enormous difference to their electorates by supporting the full implementation of Gonski.

In Queensland Kennedy would be projected to receive an extra \$57 million dollars and Victoria's Indi \$21 million. In Tasmania, Denison would receive an extra \$10 million. NXT could be delivering an extra \$28 million in Mayo and \$52 million in the seat of Grey

"NSW P&C calls on the independent and cross benchers to make full implementation of the Gonski reforms a requirement for supporting either Labor or the Coalition in forming government."
