

How to create your new three coloured logo

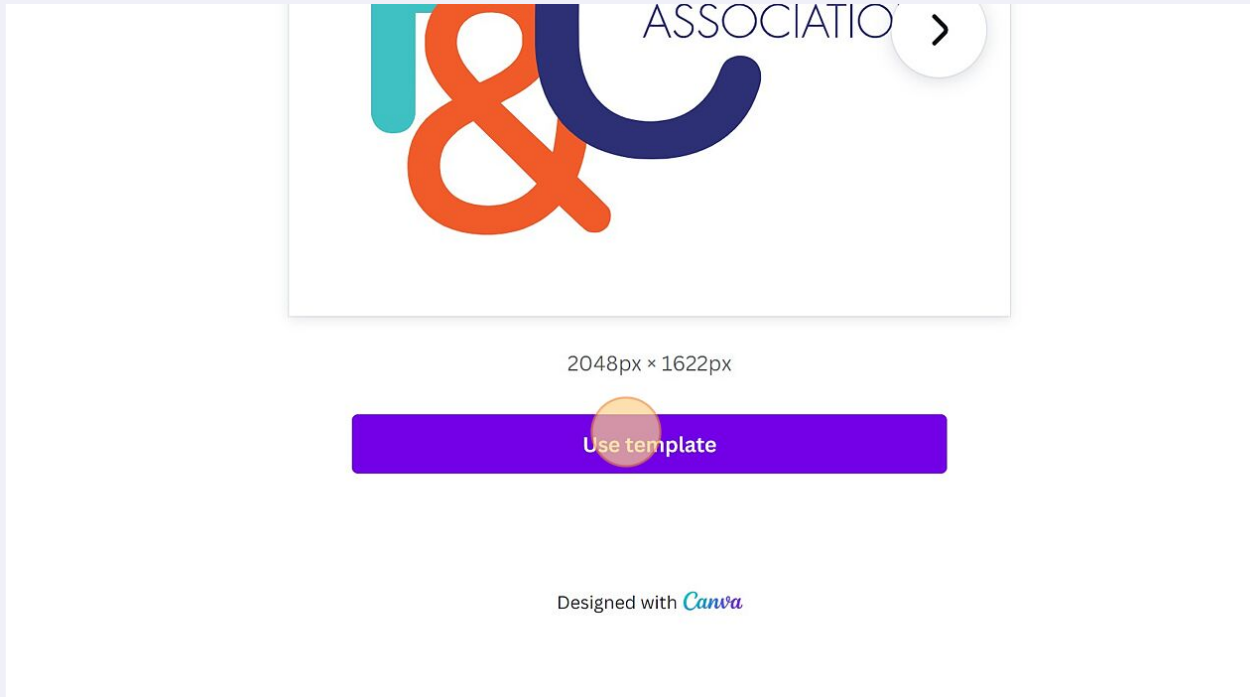

1 Click on the three colour logo.

Your new logo is editable using [Canva](#). Click on either the 3 colour or 1 colour log and login to your Canva account. You can download these while in Canva by clicking on the download icon and selecting JPG or PNG.

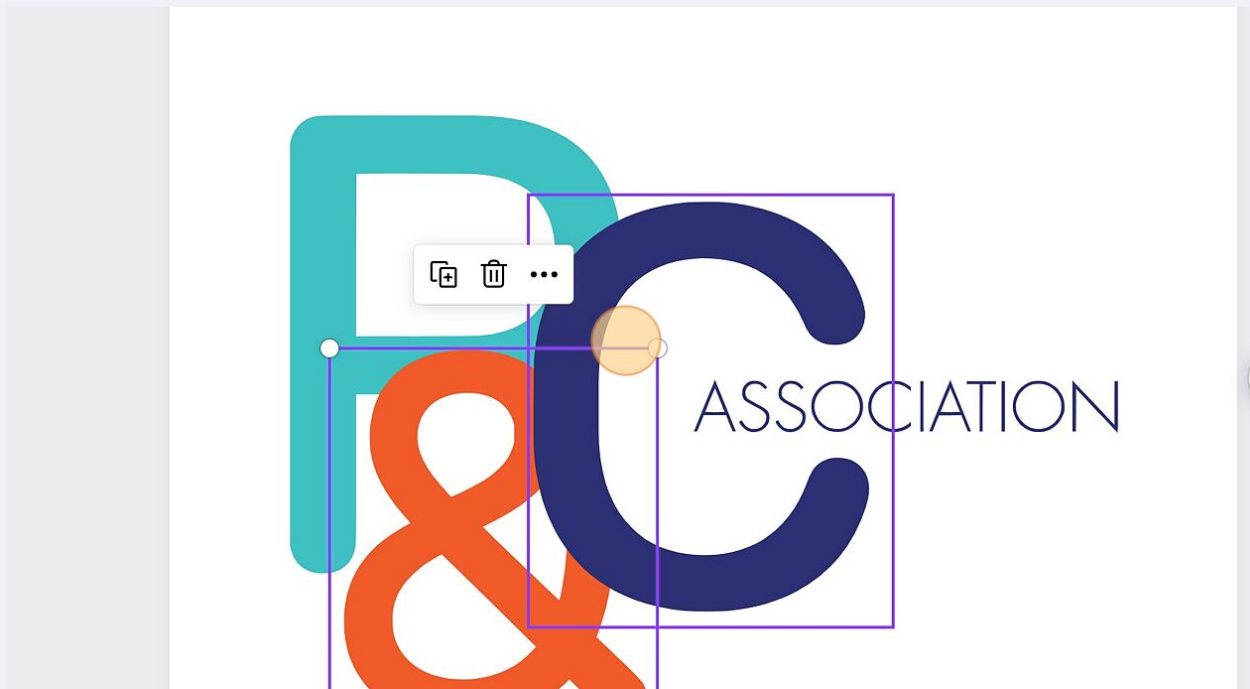

2

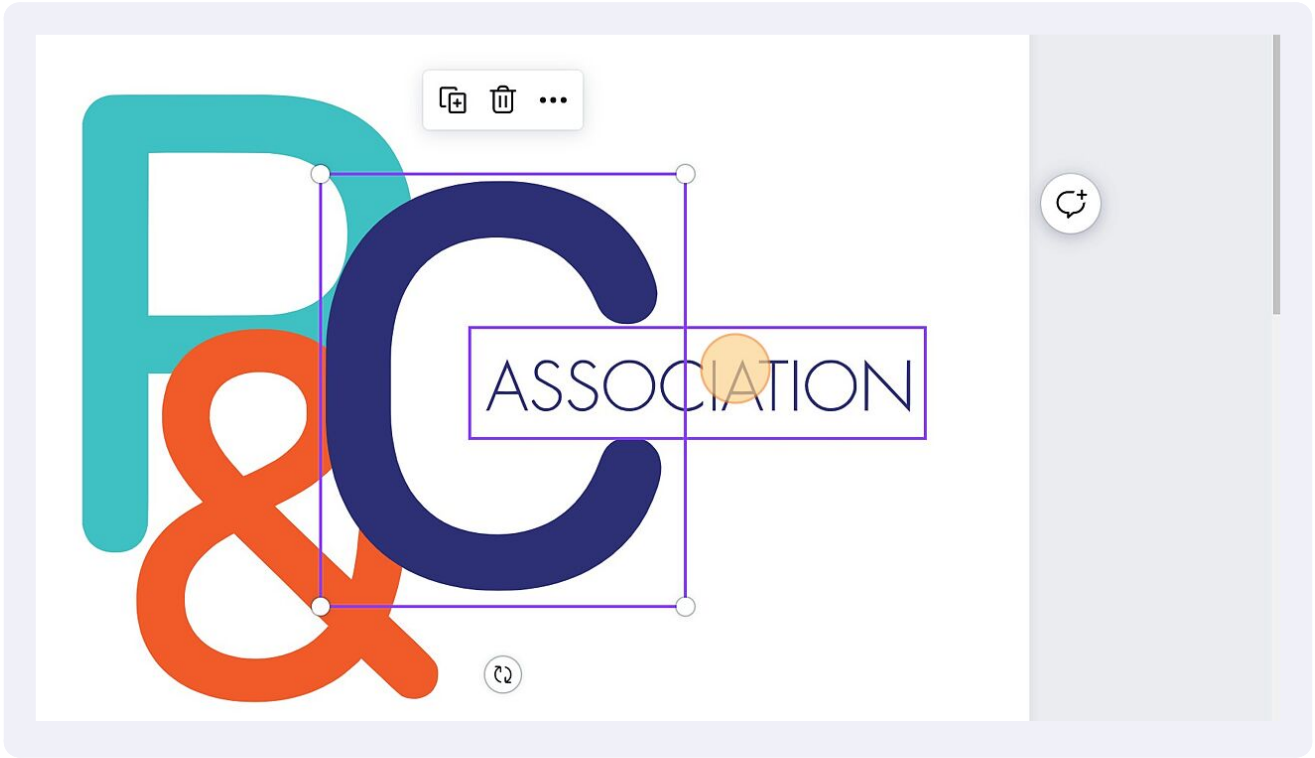

Click "Use template" and sign in to your free Canva account. If you don't have an account, you can create one for free.

3

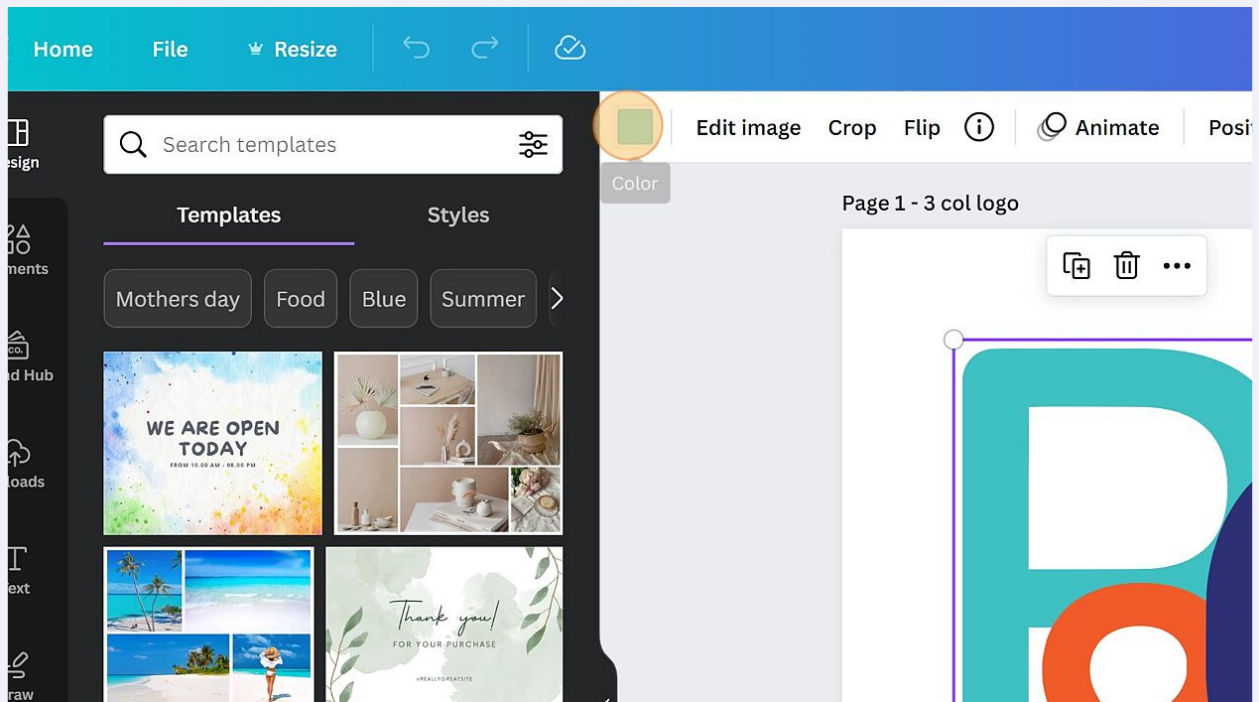

The logo template will open automatically. You'll see three different logos to choose from. You can customise each logo to match your school colors.

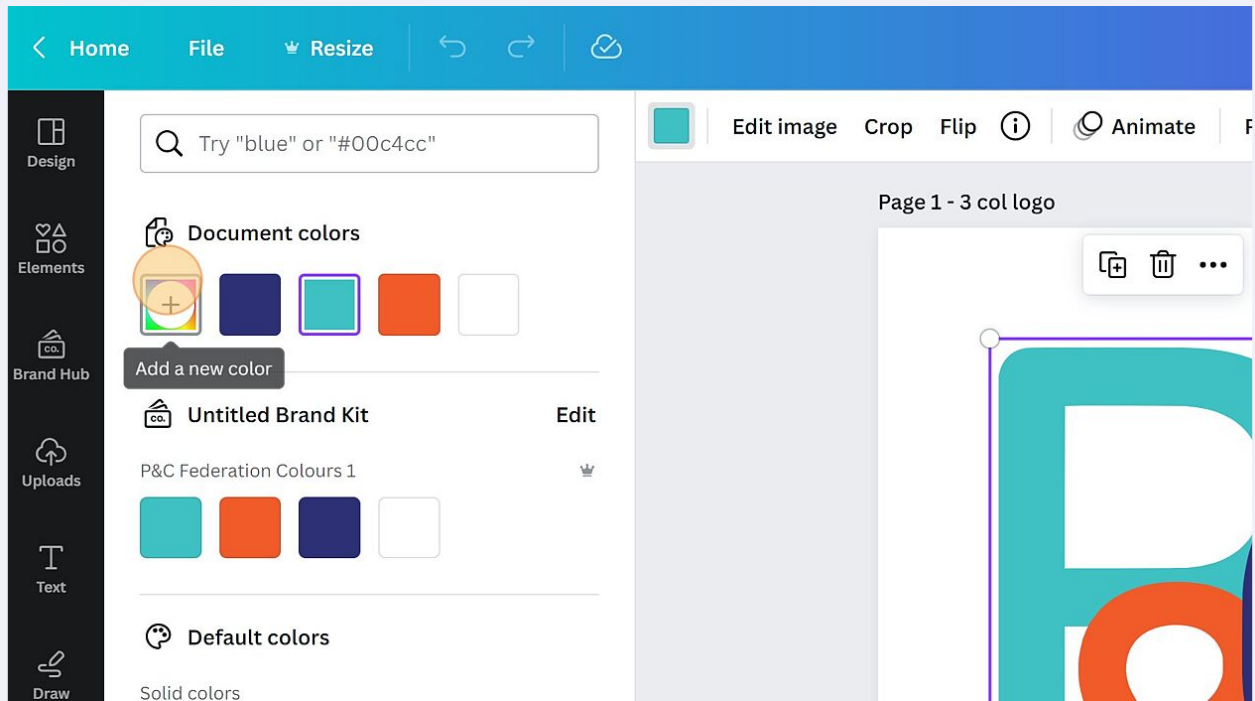

4

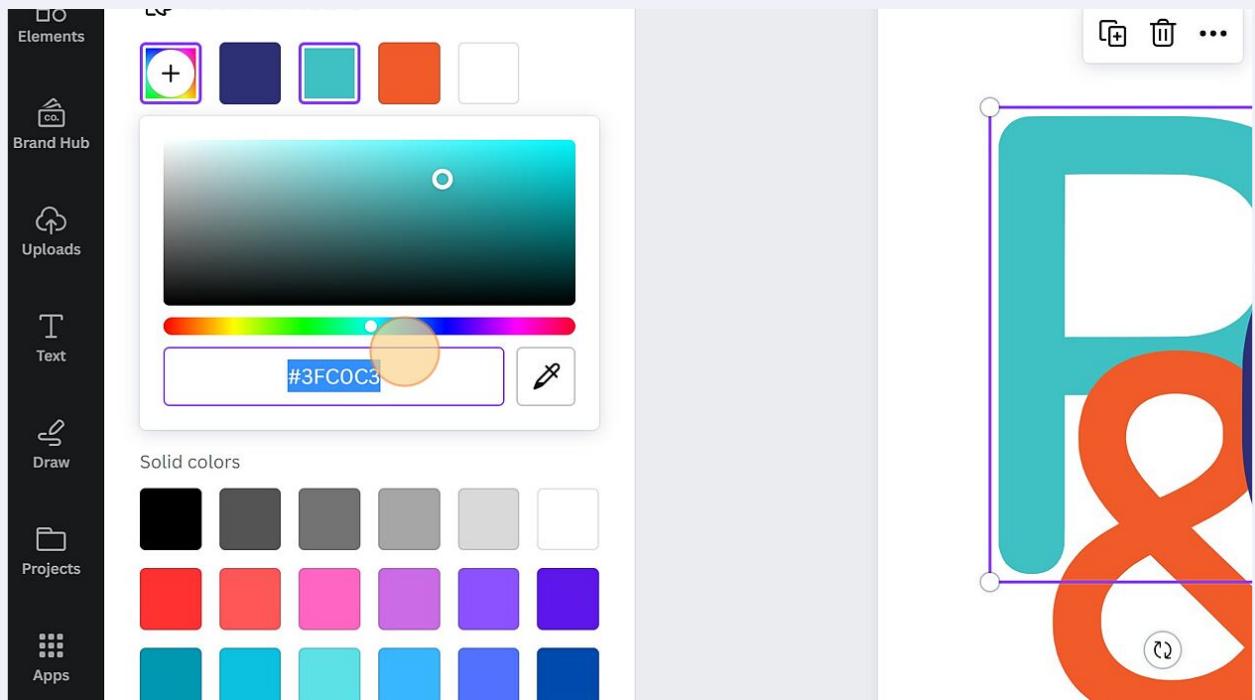

To change the color, select the element you want to change and click the color box on the top left of the screen.

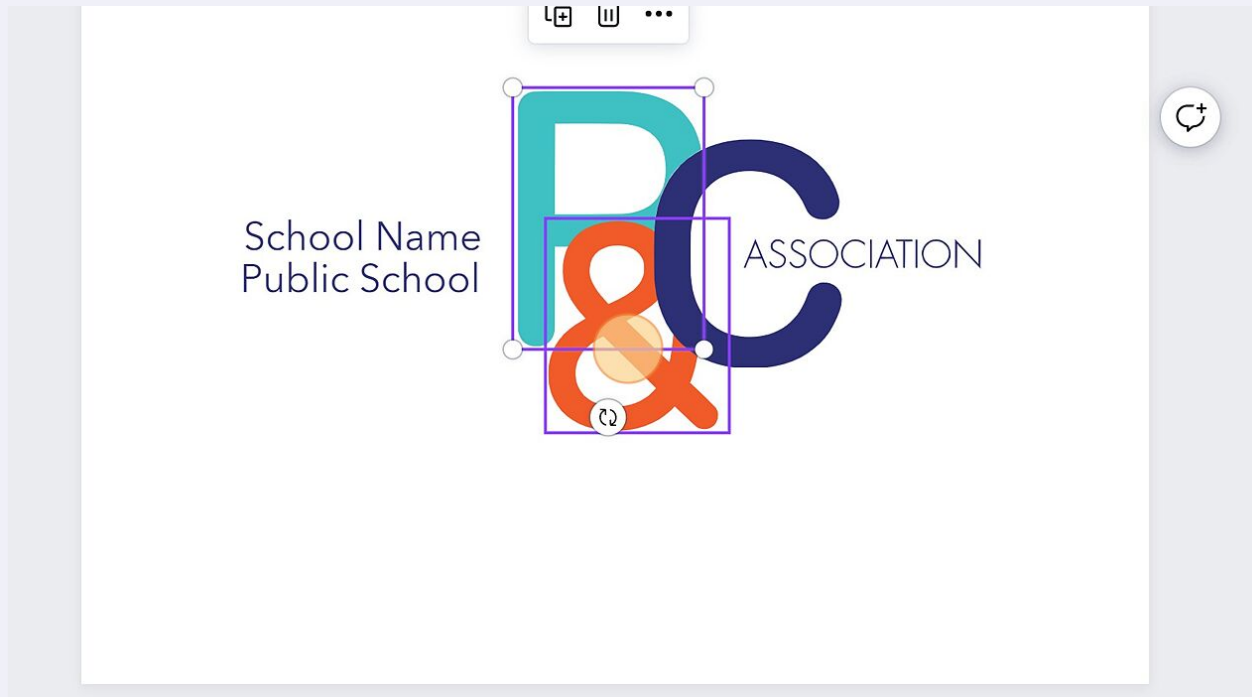

5 Click here.

6 Enter the hex colour code you wish to use or select a colour from the colour panel. You can check with your school for the colour codes of your school colours.

7 Repeat steps 4-6 for each element you want to change.

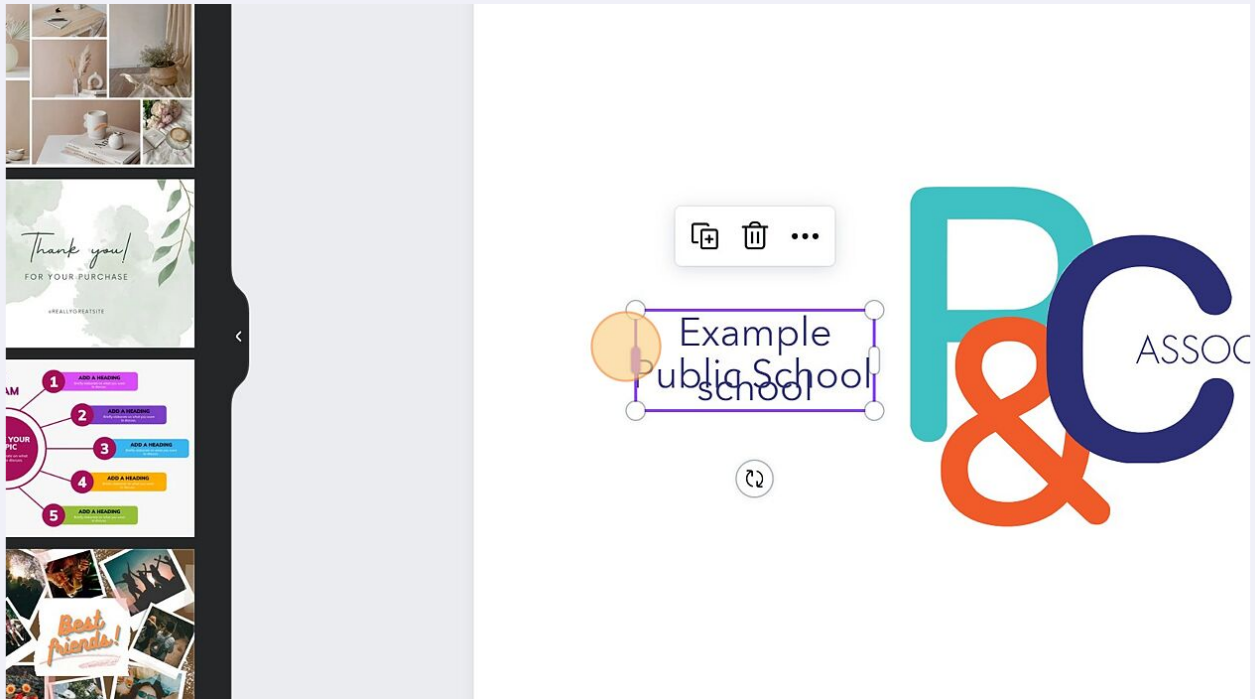

8 You can add your school name to the logo by clicking "School Name" and typing it.

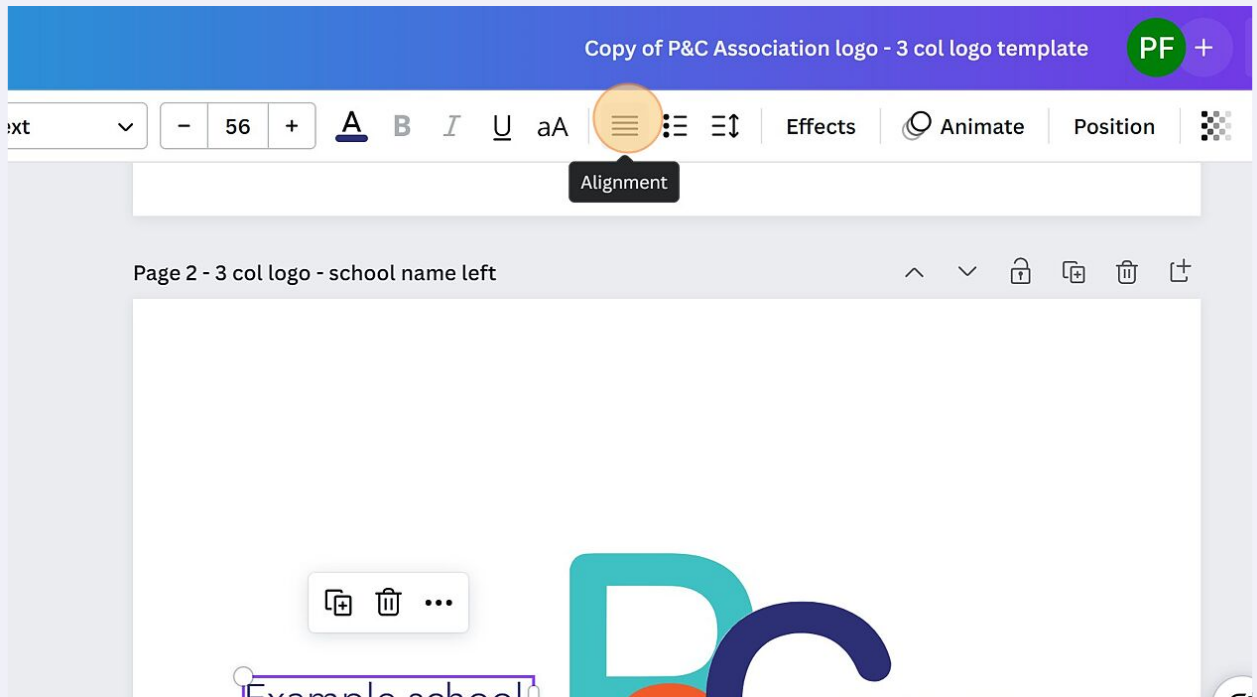

9

Adjust the length of the text so it fits in one line. Click and drag the white line until the name fits.

10

Make sure the text is aligned to the right.

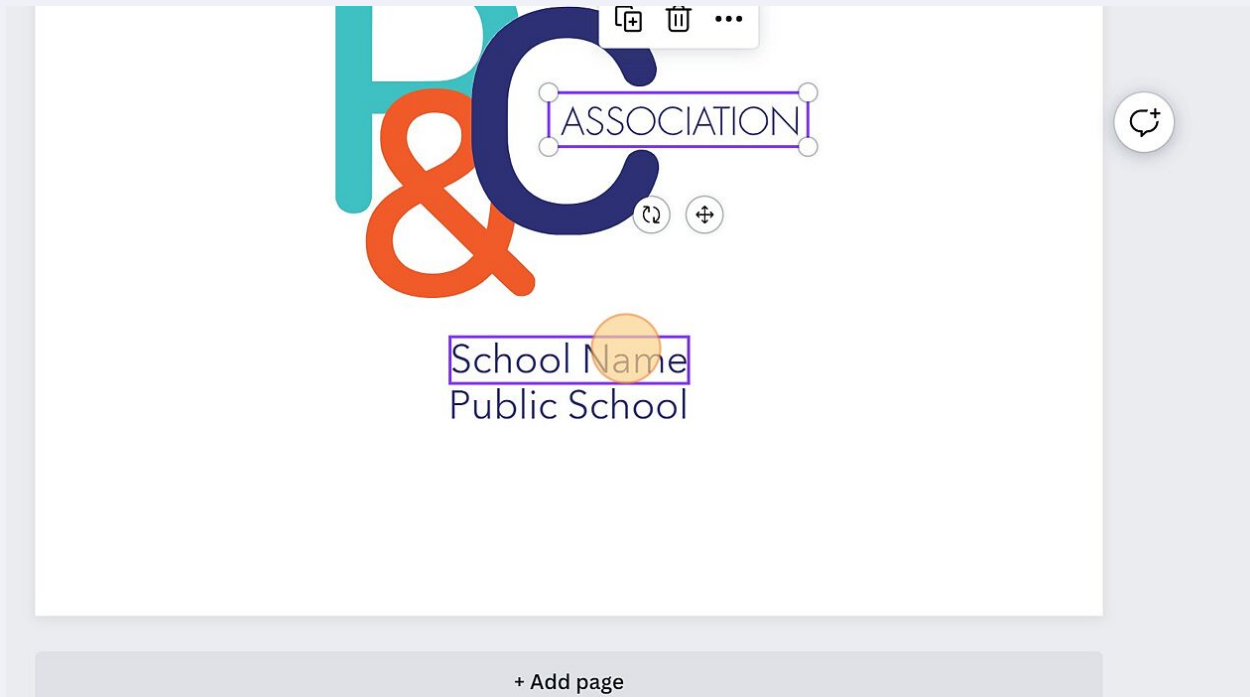

11

Align your school name with the "Public School" text below. Canva will show a blue line when they're aligned.

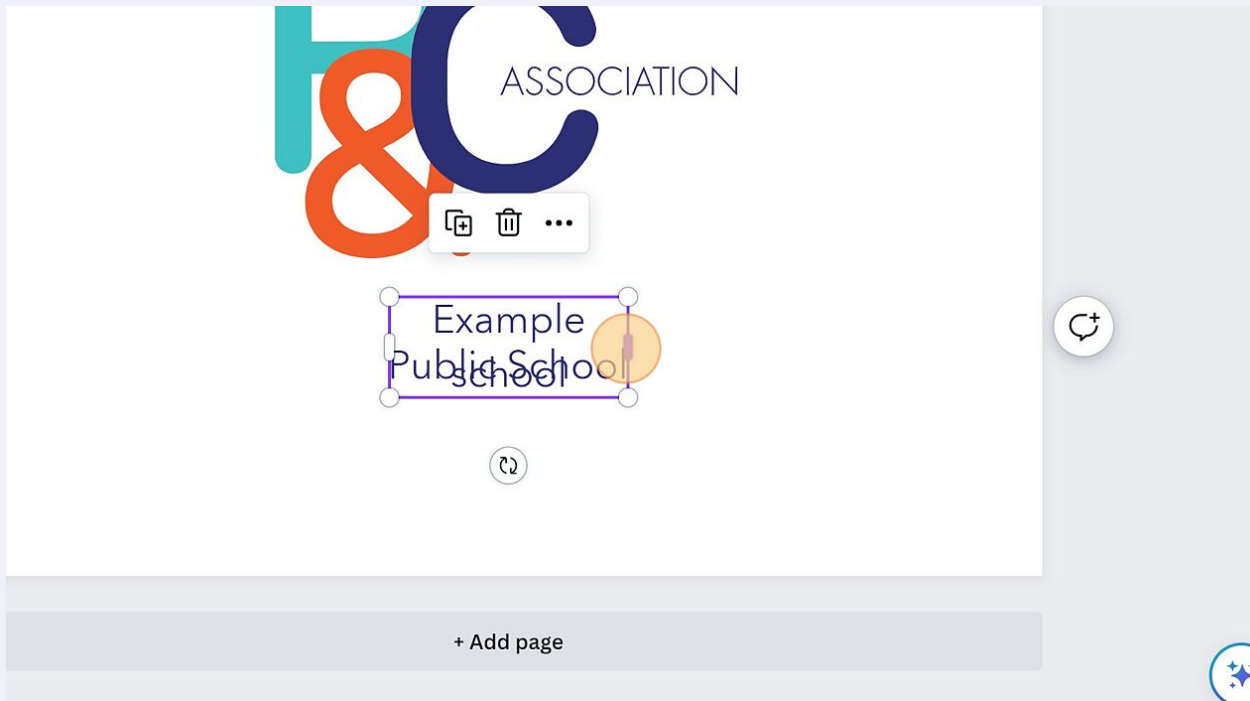

12

You can also enter your school name at the bottom of the logo. Click "School Name" and type it.

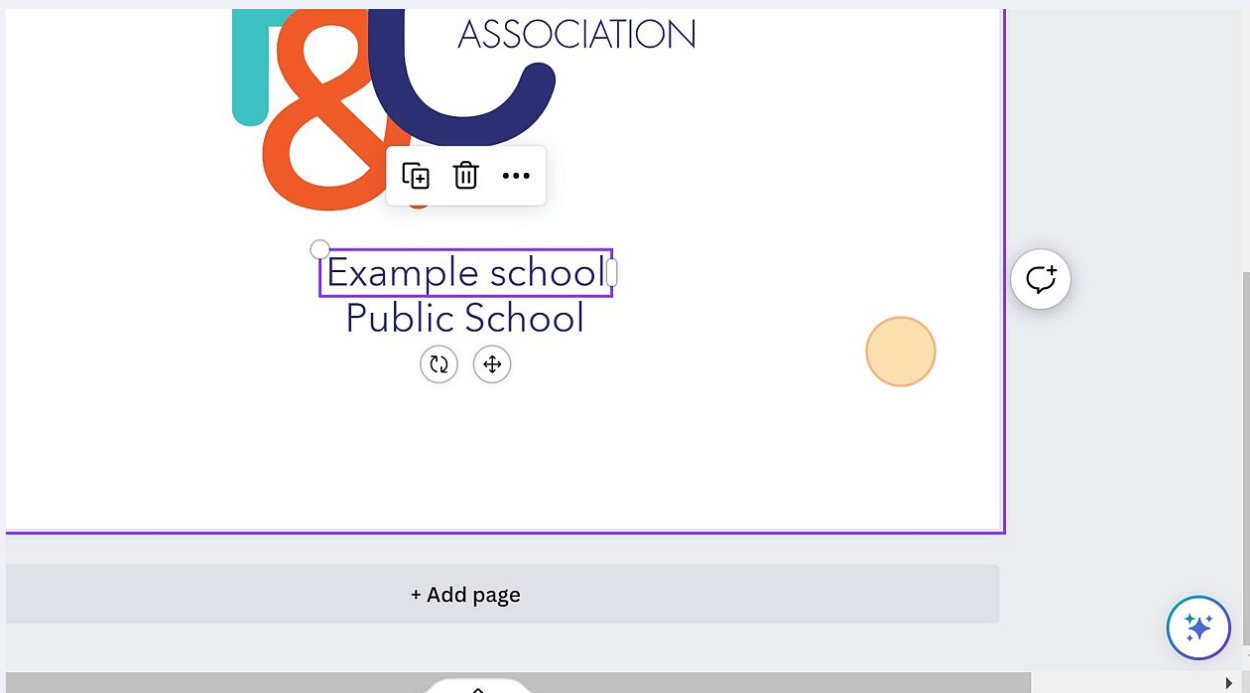

13

Adjust the box length so it fits in one line. Click and drag the white lines on either side.

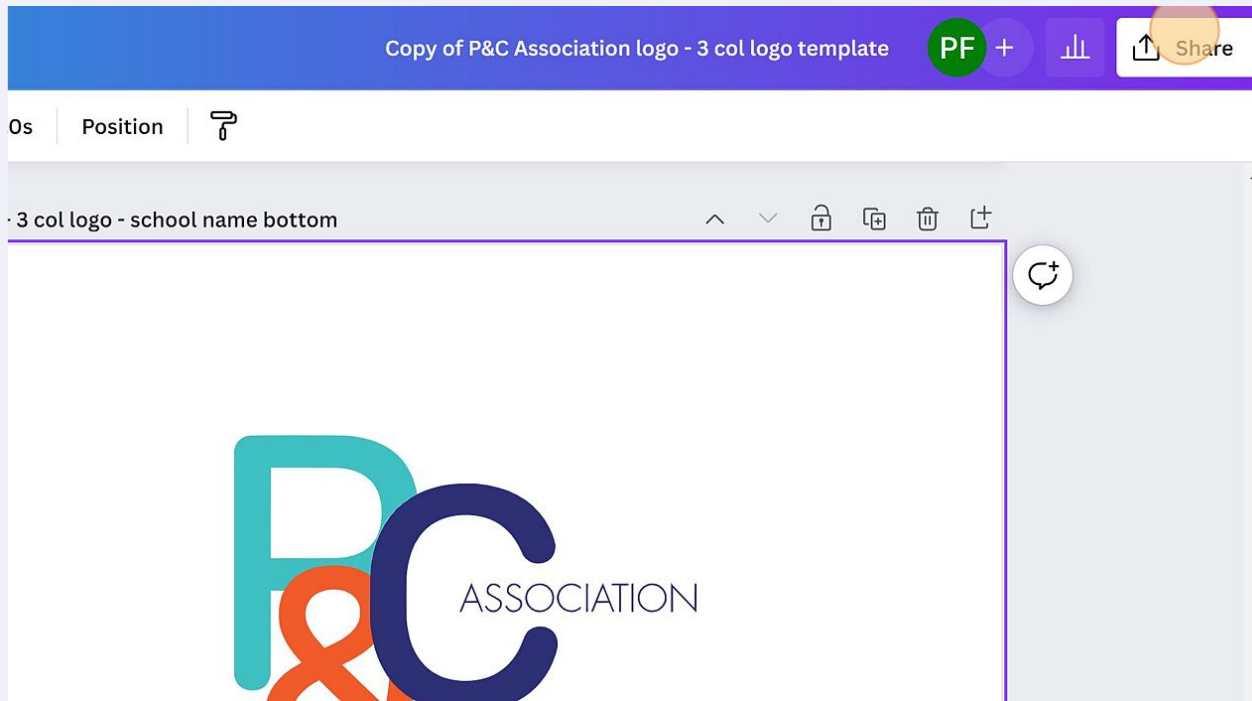

14

Center your school name with the logo. Click and drag it until a blue line appears in the middle of the page.

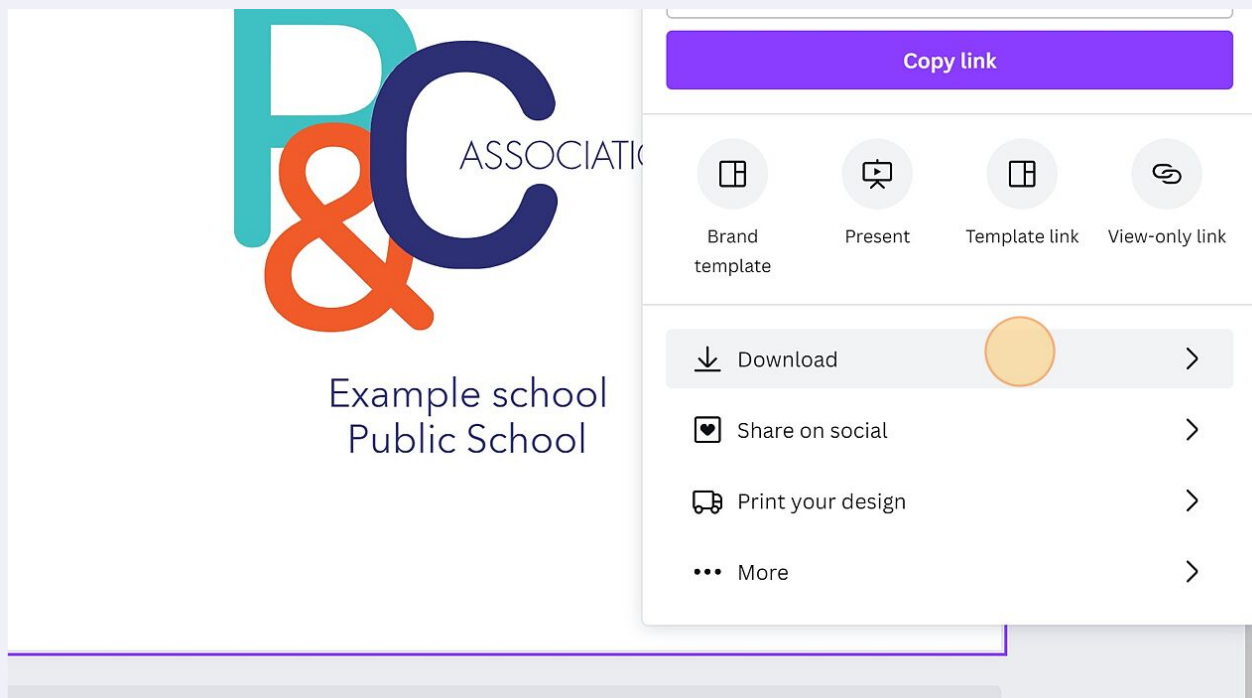

15

Once you've customised your logo with your school colors and name, export it by clicking "Share."

16

Click "Download."

17 Make sure the file type is set to "PNG."
